

Year 2 Home Learning 24rd May, due in on Monday 4th June

Estimating and Measuring Capacity

Find some containers at home (empty bottles, etc.) and *estimate* how many millilitres (ml) or litres (L) it will take to fill it. Then check it.

<p>Container</p> 	<p>Estimate (ml or l)</p>	<p>Actual How many millilitres (ml) or litres (l)?</p>

Which container held the most? _____

Which container held the least? _____
