

Year 2 Home Learning Thursday 14thth June 2018

Due in Monday 18th June

We have been learning about the importance of hand washing and food hygiene. We are particularly interested in what can happen if we do not keep our hands clean when we are preparing or eating food. Your homework this weekend is to keep a record of how many times you wash your hands and why you did it!

Reason	Tally	Frequency
After toilet		
Food preparation or eating		
Coughing or sneezing		
Dirty hands!		
Other (explain what it is!)		

You could also make notes about food storage and preparation that you see happening this weekend. Is all of the food in your house kept in the fridge? Can you explain to your family why some foods need to be chilled and others don't?

If you have any questions about food hygiene or hand washing, write them down and we'll talk about them in class next week.
