81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

Bob the dinosaur wants to count to 100 but he doesn't have time to count on in 1's. What happens if he counts on in 2's? Start on number 2, Colour each square he jumps on and tell an adult what you notice.

**Challenge**

What do think will happen if he counted in steps of 5's? do any numbers overlap?? Can you think of other ways to count forwards or backwards to 100?
