

## Year 2 Home Learning Autumn 2 Week 5

Next week, we will be making our own moving monsters as part of our Science and Design and Technology learning.

Can you explain to an adult how our moving monsters use pneumatics to work?

Can you find anything else around your house that uses pneumatics to work?

Don't forget to log on to Bug club at home and continue practising in 2's, 3's, 5's and 10's!
