

Next week we will be investigating 3D shapes and using them for an exciting building project! In preparation for this can you find any 3D shapes around your home or take photos of any you see around you (on your way to school, in the park etc)

If you can bring any 3D shapes (from your recycling) into school for us to use next week, this would be fantastic! These could include a cereal packet, kitchen roll tubes, etc. See if you can find any usually shaped packaging. Please ask before you bring anything in to school.

Happy hunting!
