

Home Learning Spring 1 Week 1

Next week, we will be looking at our family history. What is similar about our family and backgrounds and what is different.

For home learning, can you discuss your family history with a family member?

Some questions to think about are –

What country is your family from?

Where has your family lived?

What religion does your family follow?

What holidays do you celebrate?

You could either –

Draw your family, write facts and information or create a poster!
