

## Year 2 Home learning

### Summer 1 Week 5

As part of our Art learning, we have been taking rubbings and sketches of different interesting patterns and textures around school. This week we have visited a local church to sketch interesting objects and parts of the church building. Following this, for home learning can you either –

- Sketch an interesting object
- Sketch different patterns and textures
- Create rubbings and draw details

These can be from within your home, the park or somewhere you are visiting!

**Don't forget to log onto Bug Club, Doodle Maths and Doodle Tables over the half term!**
